## **Delta Products Group** Biodegradable Descalers

Specifically designed to safely dissolve all water scale, lime, rust and other water-formed deposits. Biodegradable & SAFE to dispose down sewers without harm to people or any equipment.

### **888 DESCAL**

Industrial NON-Hazardous descaler with added surfactants and penetrants. Ideal for use in food plants and hospitals with condensers, chillers, piping systems, cooling towers, boilers, heat exchangers or any type of water-fouled equipment.

### **DeltaSafe D Scale**

A universal, SAFE descaler; the first approved and used onboard US nuclear submarines. Some applications include cleaning CHT systems, cooled radar systems, maskers, thrusters, heat exchangers and water cooling systems.

### **Safe D Scale PLUS**

Extra Strength industrial descaler recommended for tougher deposits to be safely dissolved and removed from boilers, cement trucks, towers and cooling systems.

### **SDS+RTD**

Our strongest version that is fortified with the extra benefits of **Delta PS 8000** and our defoamer **Foam-EX** to offer a complete Ready-to-DESCAL solution for jobs.

### **DeltaDISSOLVE**

Institutional descaler for the lighter scale jobs such as faucets, ice makers, shower heads and coffee pots. This version is SAFE for use on all Stainless Steel surfaces.

### **DeltaKLEAN**

Building Systems descaler for domestic water or systems in commercial buildings; apartments, high rises, nursing homes, hospitals, offices, condos, etc.

### **ScaleOUT Cleaner**

Closed-Loop, long-term alkaline descaler solution for NO make-up systems.

### **MarineGEL**

Vertical surface descaler for applications that need GEL to "stick", such as; boat hulls, pasteurizers, storage tanks, rust-stained home siding & cooling tower fill.

### **GlyKLEAN**

Closed Loop Glycol deposit descaler for chilled water systems with complex fouling.

### **Radiator PLUS**

Glycol deposit descaler is used to safely clean those tough engine deposits.
